EDUCATION

	2015	Macquarie University, Sydney
<i>Master of Research</i>	Grade: 82% · School: Astronomy and Astrophysics	

Description: The second year of the Master of Research program is devoted entirely to research. I constructed dynamical models of galaxies to constraint the Initial Mass Function. This year involved international collaborations, conference attendance, and writing journal articles, in addition to the research and Thesis writing.

2014 Macquarie University, Sydney

*Bachelor of
Philosophy*

GPA: 3.750 (4-pt. scale) · School: Astronomy and Astrophysics

Description: As the first year of the Master of Research program, this course extended on the content of the Bachelor of Science, with emphasis on real-world physics and applications to real research. In addition, it dealt with more advanced content, including magnetohydrodynamics, Bell's Inequality, and thermodynamics.

2011–2013 Macquarie University, Sydney

Bachelor of Science

GPA: 3.545 (4-pt. scale) · School: Astronomy and Astrophysics

Description: Extensively covered advanced topics in quantum physics, solid-state and particle physics, astronomy instrumentations, and astrophysical theories. I took additional non-compulsory mathematics courses.

2009–2010 Bossley Park High School, Sydney

*Higher School
Certificate*

ATAR: 89.35 (99.95-pt. scale)
